

High Speed Dispersers Specifications and Dimensions

STANDARD FEATURES:

- 3 HP through 50 HP
- Driven by a totally enclosed fan cooled (TEFC), 230/460 V, 3 Ph, 50/60 Hz, inverter duty motor
- Mixing head hydraulically raised by an air/oil hydraulic lift
- High Speed Disperser blade
- Stainless steel type 304 wetted parts
- All non-stainless steel external surfaces coated with a white two-part coating
- Clamping device to secure mix vessel

AVAILABLE OPTIONS:

- Larger horsepower designs available
- Sanitary design with special polishes and custom enclosures
- Custom mix vessels designed and built to desired specifications
- Cover to seal mix chamber
- Tank mounted designs available
- Special motors including explosion proof, stainless steel, wash-down, and various voltages and frequencies
- Controls including variable frequency drives, explosion proof operator stations, and Human Machine Interfaces
