

“In the auto industry, no one drives faster than Uniseal.”

Uniseal is known throughout the OEM auto industry as a premier supplier of structural adhesive and sealant systems.

With fast-moving R&D, custom formulations and superb quality, it's easy to see why this company has been so successful.

To keep production in the passing lane, Uniseal relies on the finest equipment available anywhere for high-viscosity vacuum mixing: 10- to 1,500-gallon planetary and triple-shaft mixers engineered right here at Ross.

We'd like to help you succeed, too.
Call 1-800-243-ROSS.
